1/ These include bed capacity in resorts, hotels & safari yachts.

2/ These are estimates made by MMA for tourist expenditure for travel component of the balance of payments statistics

3/ The series have been revised in May 1999 as previously tourist expenditure per arrival is derived by dividing total tourist expenditure

by the total arrivals, not tourist arrivals. Revised series reflects total tourist expenditure divided by tourist arrivals.

4/ Figures prior to 2002 are not available on a comparable basis

Note: CPI - National data not available prior to June 2004. Data has been rebased on April 2007 (June 2004 = 100).

1/ For annual data, end of period refers to year-on-year percentage change for December. For monthly data, end of period refers to month-on-month percentage change for the respective month (eg: Jan 2008 - Jan 2009).

2/ Twelve month moving average annual percentage change.

Note: CPI - National data not available prior to June 2004. Data has been rebased on April 2007 (June 2004 = 100).

1/ For annual data, end of period refers to year-on-year percentage change for December. For monthly data, end of period refers to month-on-month percentage change for the respective month (eg. Jan 2008 - Jan 2009).

2/ Twelve month moving average annual percentage change.

Note: CPI - National data not available prior to June 2004. Data has been rebased on April 2007 (June 2004 = 100).

1/ For annual data, end of period refers to year-on-year percentage change for December. For monthly data, end of period refers to month-on-month percentage change for the respective month (eg: Jan 2008 - Jan 2009).

2/ Twelve month moving average annual percentage change.

1/ New format based on IMF Monetary and Financial Statistics Manual 2000 (MFSM 2000).

2/ Since July 2007 to Oct 2010, Net foreign assets represent a net liability position (due to the net liability position of commercial banks).

3/ Foreign currency deposits (includes foreign currency deposits of commercial banks and MMA, excluding government and non-residence deposits) in percent of broad money.

NOTES:

1/" Claims on" represents all claims including loans and advances to and holdings of securities, shares and other equity issued by the respective sector.

2/"Claims to" represent all liabilities issued by the banking system to the respective sector.

EXPLANATORY NOTES ON MONETARY AND FINANCIAL STATISTICS

1. GENERAL INFORMATION

METHODOLOGY

As of January 2007, monetary and financial statistics are compiled on a monthly basis, in accordance with the International Monetary Fund, the IMF "Guide in Money and Banking Statistics in International Financial Statistics" (December 1984). Beginning February 2007 data are compiled in accordance with the methodological framework that was described in the Monetary and Financial Statistics Manual (MFSM-2000).

KEY IMPORTANT CONCEPTS IN MFSM-2000

Residency: The delineation between residence institutional units and nonresidence units is a key feature recommended in the monetary and financial statistics manual. The key concept for defining the residency of an economic unit is its centre of economic interest.

Domestic or Resident - includes all individuals and legal entities with a center of economic interest in the Republic of Maldives. Generally, a *resident* includes:

1. any individual who has physically resided or is expected to physically reside in the Republic of Maldives for one year or more; and
2. legal entities (corporations, partnerships, joint ventures, etc.) with a location (i.e. dwelling, place of production, or other premises) within the Republic of Maldives from which it engages, and is expected to continue to engage, in business activities for at least the next year.

The terms specifically exclude all foreign government Embassies, Consulates and their staff physically located/residing in the Republic of Maldives, who, along with all other persons shall be considered "*Non-Residents*".

Deposit Classification: Deposits which can be withdrawn or are transferable on demand and without notice to the account holding depository institution, at face value and without penalty or other restriction by check, draft, direct debit/credit, automatic teller machine, or other direct payment facilities are classified as *Transferable Deposits*.

All interest bearing deposits without a stated maturity which are not transferable by check, draft, direct debit/credit, automatic teller machine or other direct payment facilities and all deposits on which interest is paid for a fixed period of time and which cannot be withdrawn before maturity without giving notice and incurring an early withdrawal penalty are classified as *Other Deposits*.

2. INSTITUTIONAL COVERAGE

CENTRAL BANK (CB):

Consists of the Maldives Monetary Authority (MMA) only.

Beginning December 2001 central bank data are based on a standardized report form (SRF), which generally accords with the concepts and definitions of the IMF's Monetary and Financial Statistics Manual (MFSM), 2000.

Financial assets and liabilities denominated in foreign currency are converted to national currency units at Rf 12.75 rather than at the mid-point rate of the buying and selling exchange rates.

Securities other than shares issued by the MMA and holdings of central government bills are valued at acquisition cost or face value rather than at current market price or fair value.

OTHER DEPOSITORY CORPORATIONS (ODC):

The Other Depository Corporations subsectors consist of all the financial corporation's (except the central bank) and that issue liabilities included in the National definition of Broad Money (M2), mostly commercial banks that are operating in Maldives.

Beginning in January 2005, includes the government-owned Housing Development Finance Corporation (HDFC) are classified as ODC. With effect from September 2007, the HDFC was reclassified as Other Financial Corporation as the corporation no longer issues short-term liabilities to money holding sectors. Data exclude banks in liquidation.

For December 2001 through January 2007, data in the SRF format are compiled from pre-SRF data not based on the MFSM methodology. Departures from the MFSM methodology are explained below.

Financial assets and liabilities for which economic sectorisation is unavailable are allocated to the economic sector having the largest volume of transactions in the category.

Financial assets and liabilities for which economic sectorisation is unavailable are allocated to the economic sector having the largest volume of transactions in the category.

Held-to-maturity securities are valued at acquisition cost rather than at current market price or fair value. Holdings of equity shares not traded in active markets are valued at acquisition cost rather than at current market price or fair value.

Accrued interest is included in Other Items (Net) rather than in the outstanding amounts of the financial assets and liabilities.

DEPOSITORY CORPORATIONS (DC):

The Depository Corporation is a consolidation of Assets and Liabilities of the Central Bank and the Other Depository Corporations.

3. MONETARY AGGREGATES

BROAD MONEY: Broad Money calculated from the liability data in the sections for the Central Bank and Other Depository Corporations accords with the concepts and definitions of the MFSM and is consistent with M2 described below.

MONEY (NATIONAL DEFINITIONS):

Reserve Money (Mo): comprises currency in circulation, transferable deposits of banks and public nonfinancial corporations with the MMA in national and foreign currency, and securities issued by the MMA held by public nonfinancial corporations. Currency in circulation refers to notes and coins issued by the MMA less the cash in the vault of the MMA. Banks deposits comprise minimum required reserves and other settlement balances with the MMA in national and foreign currency.

Narrow Money (M1): comprises currency outside depository corporations, demand deposits of public nonfinancial corporations with the MMA in national currency, and demand deposits of public nonfinancial corporations, other financial corporations, and private sector with commercial banks in national currency.

Quasi Money: comprises demand deposits of public nonfinancial corporations with the MMA in foreign currency, and demand deposits of money holding sectors (public nonfinancial corporations, other financial corporations, and private sector) with commercial banks in foreign currency and savings and time deposits of money holding sectors with commercial banks in national and foreign currency. It includes Securities issued by the MMA held by public nonfinancial corporations. For January 2005 through August 2007, includes short-term securities issued by the HDFC.

Broad Money (M2): comprises narrow money and quasi money.
